REPORT TO GOVERNOR

DIRECTORY OF MINES

COAL AND COKE STATISTICS

PRELIMINARY REPORT

TO HIS EXCELLENCY,
HOWARD M. GORE,
GOVERNOR OF WEST VIRGINIA.

SIR:

I herewith submit to you my ninth Annual Report of the Department of Mines, it being the forty-sixth annual report of the condition of the coal industry of the state.

The period covered by this report is from January 1, 1928, to December 31, 1928, and is compiled from the annual reports as submitted by the mine operators. It is condensed in form and only those statistics of general importance and necessary for the information of the public are given in detail.

PRODUCTION OF COAL AND COKE

Six hundred and forty-three companies, operating 995 mines and employing 112,751 men, reported a production of 133,866,587 tons of coal and 431,068 tons of coke, a decrease in the coal production of 12,221,534 tons and in the coke production of 84,460 tons.

Below you will find a comparison of the production of coal and coke for the calendar years 1927-28, together with the change in same.

	1927	1928	Decrease	Percentage
Coal.....	146,088,121	133,866,587	12,221,534	8.37
Coke.....	515,528	431,068	84,460	16.38

During the year 1928 the coal production of the state decreased 8.37 per cent under the production for the previous year, and the coke manufactured decreased 16.38 per cent during the same period. Below you will find the estimated value of both coal and coke for the year 1928.

Total value of coal produced (133,866,587 tons).....	\$ 214,186,539.20
Value of coal used in operating (663,570 tons).....	1,061,712.00
Value of coal sold local trade and tenants (1,990,795 tons).....	3,185,272.00
Value of coal used in coke ovens (732,682 tons).....	1,172,291.20
Value of coal shipped from mines (128,979,540 tons).....	206,867,264.00
Value of coal mined by small wagon mines (1,500,000 tons).....	2,400,000.00
TOTAL.....	\$ 214,186,539.20
Value of coal sold (132,470,335 tons).....	\$ 211,952,536.00
Value of coke sold (431,068 tons).....	1,732,893.36
TOTAL.....	\$ 213,685,429.36

The coal produced was disposed of in the following manner:

Produced by small country mines—sold at mines	1,500,000
Used in operation of mines	663,570
Furnished local trade and tenants from commercial mines.....	1,990,795
Used in coke ovens.....	732,682
Shipped from mines	128,979,540

TOTAL.....	133,866,587
------------	-------------

The tonnage produced during the year originated in the several geographical districts, and is compared with the tonnage for 1927 as follows:

DISTRICT	1928	1927	Increase	Decrease
Panhandle.....	7,110,472	7,018,815	91,657	
Fairmont.....	23,581,049	26,963,029		3,381,980
Preston-Barbour.....	6,477,420	7,886,441		1,409,021
Elk Garden.....	1,701,801	2,096,640		394,839
Mason.....	49,602	54,478		4,876
Putnam.....	433,767	422,226	11,541	
Kanawha.....	16,736,856	19,441,101		2,704,245
New River.....	26,112,118	25,736,170	375,948	
Logan.....	19,442,332	23,225,294		3,782,962
Pocahontas.....	25,414,288	25,536,154		121,866
Mingo.....	5,306,882	6,207,773		900,891
Small Mines.....	1,500,000	1,500,000		
TOTALS.....	133,866,587	146,088,121		12,221,534

During the year 1928 there were 3,012 mining machines in use at 918 mines, employing 53,947 men and producing 110,907,877 tons of coal, which is 82.85 per cent of the total production of the state. The following table exhibits the growth of machine mining since the year 1897.

YEAR	Number of Mines Using Machines	Number of Machines in Use	Total Employees Incident to Machines	Number of Tons Produced by Machines	Percentage of Total Production	Number of Days Worked
1897.....	16	55	652	600,418	5.12	197
1898.....	28	96	933	1,070,293	7.04	214

Average tons per year per each miner (32 years).....	1,359
Average number of days worked per year (32 years).....	206

The total acreage of coal mined in the state based upon returns by the operators and made at this office since 1897 is represented in the following table:

1897.....	1,734 Acres
1898.....	2,185 "
1899.....	2,361 "
1900.....	2,639 "
1901.....	2,855 "
1902.....	3,352 "
1903.....	3,222 "

1904.....	3,968 Acres
1905.....	4,692 "
1906.....	5,517 "
1907.....	5,780 "
1908.....	5,915 "
1909.....	5,608 "
1910.....	7,907 "
1911.....	10,802 "
1912.....	11,241 "
1913.....	11,231 "
1914.....	10,100 "
1915.....	9,472 "
1916.....	10,230 "
1917.....	10,343 "
1918.....	10,751 "
1919.....	9,504 "
1920.....	9,618 "
1921.....	10,405 "
1922.....	8,795 "
1923.....	11,539 "
1924.....	12,137 "
1925 (18 months).....	21,898 "
1926.....	18,659 "
1927.....	20,306 "
1928.....	18,761 "
TOTAL.....	283,527 Acres

The mines of the state averaged 196 days for the past year.

COKE OVENS AND COKE PRODUCED

Coke plants in the state during the year reported a total of 2,464 coke ovens, of which number 1,177 were in actual operation.

There were 732,682 tons of coal converted into coke, which gave a yield of 431,068 tons of coke and gave employment to 459 persons. The decrease in the production of coke as compared with the previous year was 84,460 tons. The average price per ton of coke was \$4.02.

MEN EMPLOYED

During the year 1928 there were employed at the mines and coke ovens within the state an average of 112,751 persons. Of the total number employed there were:

10,502.....	Pick Miners
48,449.....	Machine Miners
5,498.....	Machine Runners and Helpers
31,407.....	Inside Laborers
16,436.....	Outside Laborers.
459.....	Coke Workers

Counting the superintendents, mine foremen, fire bosses, store managers, store and office clerks, it would be safe to add five persons per mine employed in these capacities. Basing this estimate on 995 producing mines, it would make a total of 4,975 persons, or a grand total of 117,726 employees directly connected with the operation of the mines.

The nationalities of the persons employed in and around the mines are given in a tabulated form in another part of this report, and the totals of the various nationalities are as follows:

Americans (White).....	63,236
Negroes.....	23,987
Italians.....	4,747
Hungarians.....	3,824
Polish.....	2,530
Austrians.....	895
Russians.....	1,200
Spanish.....	963
Slavish.....	1,298
Greeks.....	650
Lithuanians.....	586
English.....	582
Other Nationalities.....	3,253
TOTAL.....	112,751

SHIPMENTS OF COAL AND COKE

For the year 1928 the operating coal companies of the state reported 127,723,690 tons of coal and 431,068 tons of coke shipped over the railroads from the mines in the state. They also reported for the same period 1,255,-850 tons of coal shipped by river, 999,954 tons of which originated and were floated down the Great Kanawha, and 255,896 tons were shipped on the Ohio River. This does not include the tonnage of fuel consumed by water craft and local river trade. No coal was shipped on the Monongahela River and no coke was shipped by water, either on the Kanawha, Monongahela or Ohio Rivers during the year.

SELLING PRICE OF COAL AND WAGES PAID

During the year 1928 the average price received by pick miners throughout the state for mining run-of-mine coal was 79 cents. The average tonnage produced by each pick miner was 2,043 tons. The average annual wage of pick miners (all pick miners included) was \$1,613.97.

The average selling price of coal shipped from the mines of the state was \$1.60 per ton run-of-mine coal.

Coke was sold f. o. b. at the ovens during the year at an average price of \$4.02 per ton.

ACCIDENTS

There were 475 lives lost in connection with the mining industry of the state during the year covered by this report. Of this number, 461 were killed inside the mines and 14 outside.

There were 4,560 non-fatal accidents at the mines during the same period, 3,994 of which were inside the mines and 566 outside.

The following is a list embracing all accidents in which two or more men lost their lives, giving the cause and date, number killed and where the accident occurred:

County	Name of Company	Name of Mine	Date	Number Killed	Cause
Fayette.....	Boomer Coal & Coke Co.....	No. 2 North.....	4-12-28	3	Local Gas Explosion
Fayette.....	Branch Coal & Coke Co.....	Elverton.....	5-15-28	2	Slate Fall
McDowell....	Keystone Coal & Coke Co.....	Keystone No. 2....	4- 2-28	8	Local Gas Explosion
McDowell....	Princess Poca. Coal Corp.	No. 1.....	11-30-28	6	Local Gas Explosion
McDowell....	Yukon Pocahontas Coal Co.....	Yukon No. 1....	5-22-28	17	Local Gas Explosion
Mercer.....	Booth Bowen Coal & Coke Co....	Booth Bowen No. 1.....	10-20-28	2	Slate Fall
Mingo.....	Red Jacket Cons. C. & C. Co....	Mitchell Branch..	1-25-28	2	Slate Fall
Monongalia..	National Fuel Co.....	National.....	6-20-28	7	Local Gas Explosion
Preston.....	Clark Coal & Coke Co.....	Kenna.....	10-13-28	2	Slate Fall
Raleigh.....	Amigo Coal Co.....	Amigo No. 2....	1-19-28	2	Slate Fall
Raleigh.....	MacAlpin Coal Co.....	MacAlpin.....	10-22-28	6	Local Gas Explosion
Raleigh.....	Raleigh Wyoming Mining Co....	Edwight No. 1....	12-29-28	2	Slate Fall

SUMMARY OF ACCIDENTS INSIDE THE MINES FOR THE YEAR 1928

Number of employees inside.....	95,856
Number of days mines were operated.....	196
Number of persons killed inside.....	461
Number of days work accomplished.....	18,787,776
Number killed per 1000 employees inside.....	4.81
Number killed per 1000 days worked inside.....	.0245
Number injured non-fatally inside.....	3,994
Number injured per 1000 employees inside.....	41.67
Number injured per 1000 days worked inside.....	.2126
Number inside employees per each fatality.....	208

TONNAGE PER FATALITY

Since the year 1883, the average number of tons of coal produced per each fatality inside the mines was 196,755, including the period covered by this report, which is 290,383 tons. At the mines where fatal accidents occurred, there was an average of one life lost for each 155,511 tons of coal produced. The 461 lives lost inside the mines during the year occurred at 280 mines, employing 50,195 persons inside, and producing 71,690,619 tons of coal, while the other mines, at which not a single life was lost inside the mines, produced 62,175,968 tons. During the year covered by this report the causes of accidents in which lives were lost inside the mines are summarized as follows:

Killed by explosions (all forms).....	42
Killed by falls of roof and coal.....	249
Killed by mine cars and motors.....	111
Killed by electrocutions.....	24
Killed by other causes.....	35
TOTAL.....	461

Since 1897 there have been killed inside the mines of the state as follows:

Killed by fall of roof and coal.....	5,389
Killed by mine cars and motors.....	1,495
Killed by gas explosions.....	569
Killed by dust explosions.....	1,023
Killed by electrocutions.....	427
Killed by other causes.....	1,274
TOTAL.....	10,177

The experience of persons killed and injured for the past twenty-seven years, from 1901 to 1928 inclusive, is as follows:

Having an experience of one year or less.....	5,670
Having an experience of two to five years.....	11,040
Having an experience of six to ten years.....	7,799
Having an experience of eleven to twenty-five years.....	7,795
Having an experience of twenty-five to fifty years.....	1,638
Having an experience of many years.....	1,290
Having an experience of unknown years.....	7,380
TOTAL.....	42,592

Since the year 1908 the average lives lost inside the mines for every 1,000 persons employed is 5.66.

Ratio per 1,000 employed inside the mines during 1908.....	12.24
Ratio per 1,000 employed inside the mines during 1909.....	6.72
Ratio per 1,000 employed inside the mines during 1910.....	5.61
Ratio per 1,000 employed inside the mines during 1911.....	5.17
Ratio per 1,000 employed inside the mines during 1912.....	6.89
Ratio per 1,000 employed inside the mines during 1913.....	5.09
Ratio per 1,000 employed inside the mines during 1914.....	8.30
Ratio per 1,000 employed inside the mines during 1915.....	6.19
Ratio per 1,000 employed inside the mines during 1916.....	6.05
Ratio per 1,000 employed inside the mines during 1917.....	4.95
Ratio per 1,000 employed inside the mines during 1918.....	4.94
Ratio per 1,000 employed inside the mines during 1919.....	4.57
Ratio per 1,000 employed inside the mines during 1920.....	3.73
Ratio per 1,000 employed inside the mines during 1921.....	3.29
Ratio per 1,000 employed inside the mines during 1922.....	3.43

The foregoing contains only a summary of the most important information contained in this report, but a reference to the pages following will reveal the condition of the mining industry of the state and show something of its importance in our industrial development.

The main objective of this department is to conserve life and limb through the elimination of preventable accidents. Safety is a habit, and it is our constant aim to make those engaged in the coal industry safety-minded. To stress safety and to rivet the attention of men and management on this major industrial problem, we have in West Virginia set apart one day of the year—STATE SAFETY DAY—to give an inspiring demonstration for the cause of safety.

State Safety Day is distinctly a West Virginia Day, and since its inception in 1926 it has for three successive years been the largest safety event of its kind. It would be dereliction on my part if I failed to express my appreciation to the miner and operator whose cooperation in this movement has made State Safety Day such an outstanding event in our industrial life.

The first annual observance of State Safety Day was held at Huntington on August 31, 1926, and 121 first aid mine teams participated. The second annual observance was held at Morgantown on September 17, 1927, and 147 mine teams were on the field. The third observance was held at Bluefield on September 22, 1928, and 180 mine teams participated. Inability to secure a sufficient number of competent judges to officiate in a first aid meet where such a large number of teams were competing, makes it necessary in 1929 to hold a series of divisional or sectional meets throughout the state, and the winners of these divisional meets will be

selected to participate in the State Safety Day, which will be held at Charleston on September 7, 1929. While the number of participating first aid teams in the state event is decreased considerably by the elimination plan, it will bring together in competition the best mine teams of the state.

It is necessary, in holding these safety first aid contests, to secure judges from other coal producing states, men who are qualified and free from personal interest. Our neighboring states have been most liberal and generous in giving us the assistance we have requested. I desire to express my appreciation of the aid so generously given by the department of mines and coal associations of Kentucky, Pennsylvania, Virginia, Maryland and other states.

We have not been content in West Virginia to enlist the cooperation of the miner and operator for a single day or confine safety activities to the annual observance of State Safety Day, which is only illustrative of a state-wide interest. Accident prevention is our greatest activity. This campaign is carried out through systematic inspections and recommendations covering all dangerous practices and conditions, and the stressing of safety through the medium of safety clubs.

It has been our objective to carry the thought of safety into the home of the miner. We have been most successful in organizing safety clubs in the mining communities, where meetings are regularly held and attended by the employers, employees and their families. These safety clubs, while stressing safety at all times, are community gatherings that stimulate discussion of community problems. There are nearly 500 of these clubs in the state and they have been very beneficial in promoting safety interest and upbuilding an improved morale in our mining towns.

It is my pleasure to express to your Excellency my very sincere appreciation of your helpful cooperation and assistance in our campaign for safety in the mines.

Respectfully submitted,

R. M. LAMBIE,
Chief of Department of Mines.
